

Belden LabelFlex

Labelling Software

Information

The Belden LabelFlex labelling software from Silver Fox includes all the templates you need to label a wide range of Belden applications including:

- Wires, cores & cables
- Patch Panels
- Faceplates & Outlets
- Wiring Blocks

The free standard version is ideal for small simple jobs, whilst the Advanced version offers enhanced functionality and the ability to import spreadsheet files saved in csv format.

Tutorials and full context-sensitive help is included; just press F1 at any time!

For a full list of version functionality, refer to the version comparison chart overleaf.

All versions are delivered via web download. Disks are available on request from our sales team. Please note
