

## Labacus Innovator Labelling Software

### Information

Silver Fox Labacus Innovator labelling software includes all the templates you need to label a wide range of applications including:

- Wires, Cores & Cables
- Patch Panels
- Faceplates & Outlets
- Wiring Blocks
- Cabinets
- General Labelling

The free standard version is ideal for small simple jobs, whilst the Advanced version offers enhanced functionality and the ability to import spreadsheet files saved in .csv format.

For users who require the ability to manipulate large amounts of data such as cross-ferruling spreadsheet xls files our Professional software is the version of choice. Download the demonstration version from our website and see what it can do for you!

The Advanced, Professional and Professional versions include built in drivers for the Silver Fox DTP-1 thermal printer, no need to install separate drivers – we include everything you need to get you going.

Tutorials and full context-sensitive help is included; just press F1 at any time!

For a full list of version functionality, refer to the version comparison chart overleaf.

All versions are delivered via web download. Disks are available on request from our sales team—please note that there will be an extra charge for this service.

Multiple-user licences are available direct from our sales department – contact us for details.
